7, Actual Return - mumbo jumbo. Let's see the real figures - what was the actual return for each year and how much did this cost the fund. Separate the general fund from the annuity fund. To protect the poorest workers only adjust the monthly pension for overpayments in the annuity. And if that brings someone below the ^{1 1/2 times} poverty level don't ~~don~~ adjust them for annuity losses. Give people the option to repay the annuity loss if they would rather have a ^{general} pension ~~to~~ monthly check ~~or~~ ~~un~~altered if you promise not to dilute the pension in the future. The unholy alliance between the old mafia who

has helped to suck the life blood out of
Detroit with the elected politicians of
the State makes the future of Detroit
and Michigan look bleak. The blood suckers
will soon be sucking their own blood ~~and~~
there will be nothing left until the Chinese
come in to suck, and perhaps contribute.
~~Don~~ The politicians are no better than
the banks who ^{banked} lentled mortgages, or sold
us the CDO swaps; They do not look after
the long term interests of society; but
their ^{next} election or de-election and
safety from threats when they don't take the
bribes.

9. Jones Day ~~and~~ has written the contracts that have been pushed thru the Detroit City Council since Kevin Orr was illegally appointed as emergency manager King of Detroit. Jones Day has given the mafia a big boost. Now the State of Michigan has entered an unholy alliance with the Mafia to restructure the city of Detroit. Rizo and their cousins from Florida (Advanced Disposal Services), have taken over ~~the~~ Detroit garbage ~~new~~ ^{new} - ^{that our contract pays for but they own} their ~~times~~ go home to Sterling Heights each nite; instead of hiring mechanics, we were advised by Brown who now works for Kevin Orr to sell our truck. At the end of the privatization contract of 5 years we

will be negotiating a new contract with
the mafia who owns the means of production
Detroit is like Mexico. The drug dealers
have money to launder and need legitimate
business like garbage, produce, and river
front real estate to invest in and the state is
helping them but not the city or the citizens
of this city or the state. Why would Anna
Helden's building next to the Whitteger ^{SP} get closed
and when she tried to rent at the Jeffersonian
they tell her 2 weeks for a credit check, then
another 2 weeks to fix up an apartment to
show her; she moved outside the city but did not
want to and was happier in her old place. My guess

is the Mafia has or want the Jeffersonian -
I helped a friend get out of ~~West~~ ~~Man~~ a
nursing home into the old Caspary Hall, and
the managers have changed 3 times in 2 years
as well as the building ownerships changing frequently
~~Also~~ Recently the state legislature passed a
law where they can padlock a building if drug
dealers are found there, evicting all the staff
8 people on nurse's statement - the bank
were excluded from these enforcement rules -
call State Rep. ^{Dist 4} Rosamund Robinson who voted
against it.

I thought the city

Last I remember I was walking along river

had piled up Petco or oil sands residue on
the edge of Detroit River - toward the fireworks
I swung around a fence at rivers edge, ~~and~~
~~then~~ was confronted by someone who said
I was trespassing. When I argued, a

I told them to stop I had a bad rotar

and escorted me to the edge of the property.

corporate structure that is getting corporate
welfare from our corpse.

149. the general fund used to cover the police fire
EMS services for the DDA downtown authority area that

until recently did not contribute any of the
city's ~~of~~ normal portion of Wayne County taxes
to the general fund. I find it ludicrous
that the DDA is a creditor when they
have had a free ride for police fire and
EMS and the city general fund has given
them million dollar budgets out of the
general fund. Why doesn't the County
do something to Help Detroit instead
of digging a deeper grave ^{not hurt} like when the

which was part of the auxiliary catalyst

will give only income tax of $1\frac{1}{2}\%$ ~~&~~ 3% for
people working there as regular employees or
players. HUD allowed good public housing
with effecient central heating to be ^{unrepaired} ~~for years~~
for years and then to be torn down, privatized

and rebuilt ~~with money~~ in no improvement in
structure, value, or worth ~~at~~ all at
the tax payers expense. When I was

9. I object to the representation of the retirees committee that was appointed and not elected by the members. While they negotiate money, they have totally neglected to stand on ^{the following} principles

The general pension should not be touched except to adjust for unjust enrichment from the annuity savings, and more importantly the workers should have the right to control ~~their~~ the management of their own pension, but with better disclosure requirements and without the obligation of the city to borrow money ~~to~~ to fund unfunded pensions; the workers should control the pension investments, not some corporate investors who want to invest in what helps their friends bottom line instead of the pensioners long term security. We see corporate welfare in the Detroit Landbank, the Michigan Strategic Fund, the new proposed stadium that gives Illinois ~~and~~ the State of Michigan and the Downtown Development Authority advantages but does nothing for the general fund for all Detroiters garbage privatization to ~~link~~ ^{link} up every other week to make the Demolition of Detroit more profitable for the demo companies.

yard waste ~~paid~~ paid for brush
to private companies even in January.
In the neighborhood organized crime is inten-
ally destroying housing, pulling down porches,
making holes in roofs, removing bricks at roof
top level. This is not just my opinion
but that of many. Our city will be made
to conform to the Detroit Future Plan
"by any means necessary."

69. Why if the plan is bad and retires as
Class 7 rejects it, why should the person
who made the bad plan, the emergency
manager, be stipulated as the person to
appoint a new committee. What if our 5
plans and contracts that the EM and his
law firm Jones Day have imposed on the city
Council and ~~as~~ we citizens so far are terrible already.
Who are the 5 biggest bondholders in class 7.

71. The purpose of a pension and vesting rights is to attract and retain good and loyal employees. When you terminate an employees pension plan before he or she has ~~as~~ had enough work hours to get a vested pension by working the equivalent of 10 years, this ~~is~~ legal worker is still making him or herself available and should be given the pension they have earned so far even though they are not yet vested. A ~~player~~ leader from Clemente told me he was told he was going to get \$23 a month so far for the seventeen years he has worked part time, but that was last year. This year he was told the pension system is changing and since he is not vested, he will receive \$ a month now instead of the \$230 he has accumulated ~~as of~~ last year.

Other iron decisions made by the Governor who appointed the E.M. and the corporate controlled legislature to privatize Detroit Public Light which now has only 8 employees left & they work in

the lamp room at \$17 an hour and less.
Is made \$11.35 an hour in 1986 as a street
light maintenance worker. They are changing
the lamps that the previous director of
PLD said hadn't been changed for 6 years
and ^(last summer) their life span is not usually more
than 5 years. So to look like the
EM is a savior and lighting the city,
they kept PLD lamp room employee
to put new lamps in; but Detroit
Edison who we are paying to repair
our assets has subcontracted with
Le Con^{SP?} to put new LED fixtures up
that for \$1,100 a piece. The GE company
salesman had 2 samples of ¹³⁹ ~~LED~~ with LED
fixtures that are supposed to give out 100,000

equivalent to sodium vapor for only
134 watts. The mayor said the new LED
had more watts and spread the light out
more. The P.D. says room workers
say the LED fixtures spread the light
out less. But for energy savings that
would pay for themselves with lower
bills from ~~State~~ DTE which buys
most of its power off the grid instead
of generating (which we could and
should do until we can generate it), we
could get LED fixtures with solar batteries
and with photocells plug and plug ins.
That can turn the lights after a certain time.
Lights should be provided for the inter-
sections and more later when we can afford an
want. Lights do not reduce crime, though
people who make money off them would want
you to believe it. The City said the lights

could run between \$600 and \$800 but the
major proposed \$60,000 lites should get a
big discount, but will the general public
realize the savings or will it be lost
in kick backs between corrupt
politicians and companies. ^{Ex} Mayor Berg
was ^{is} on the Board of Directors of DTI
I believe. It was the State Legislature
and ^{current} Governor who voted for a lighting
authority. ~~is not saying that~~ to privatize
our lighting and give more monopoly control
to Detroit Edison. One of the major signs
of Fascism like occurred in Nazi German
was the lack of separation between government
and the corporations. ~~Monopoly~~. And here they
play on racism and financial insecurity instead of
on anti-semitism, anti-communism, anti-mentally ill, etc.

Since I have been here and opened my eyes to the politics of Detroit and the ~~South~~ Cass Corridor, I see the city being raped by the mafia, and now there is an unholy alliance between the Mafia, the State Government apparatus including the present governor, the Michigan Strategic Fund, the State Legislature, the Alex and Koch Bros. et al agenda, and those who want to play on racism to shore up their sinking finances by devouring Detroit, and trying to lie to a public who knows things could be better for all but haven't taken power yet to work this wonderful place for the benefit of the people who have already been driven out or those who would like to come back.
